SUMMARY

A Full-Stack Web Developer with a background in psychology and communications, and a certificate in Full Stack Web Development from the Georgia Institute of Technology Coding Bootcamp. Passionate about building user-centric applications with a focus on innovative problem-solving and seamless user experiences. Adept at leading projects from ideation to execution, leveraging creativity, collaboration, and technical skills to deliver impactful solutions.

TECHNICAL SKILLS

JavaScript, HTML, CSS, React.js, Next.js, Node.js, SQL, MongoDB, MySQL, Tailwind CSS, Bootstrap, GraphQL, Git, Github, Adobe Creative Cloud, WordPress, Google G-Suite, and Microsoft Office.

PROJECTS

rcmnd | https://tinyurl.com/46w3khds | https://tinyurl.com/2tyuxzyv

- A platform to share your passions and connect with others through the things you love.
- Responsible for ideation, design, and implementation of both front-end and back-end, ensuring seamless integration and performance.
- Technologies used for this application were: Next.js, Prisma, MongoDB, and B2 Cloud Storage.

Start or Sit | https://tinyurl.com/3cxxt38y | https://tinyurl.com/bdhh5c49

- A fantasy football web application that provides AI-powered start/sit recommendations to help users make optimal weekly lineup decisions.
- Responsible for full-stack development including user authentication, AI integration, and database management to create a personalized fantasy football decision-making tool.
- Technologies used for this application were Next.js 15, NextAuth.js, MongoDB Atlas, Prisma ORM, OpenAI API, Tailwind CSS, and Vercel.

Clairese Ceramics | https://tinyurl.com/bdebxwj8 | https://tinyurl.com/yckyeryy

- Clairese Ceramics is an e-commerce site designed to showcase and sell pottery by a local Atlanta artist.
- Responsible for the back-end queries and mutations. Along with helping with the front-end styling and logic of the website.
- Technologies used for this application were React, TailwindCSS, GraphQL, and Javascript.

EXPERIENCE

Learning Technology Contractor   Jan 2021 - Aug 2025
Our Daily Bread   Grand Rapids, MI
Utilizing a range of coding languages including HTML, CSS, and JavaScript, I construct and configure courses within a learning management system, adhering closely to provided style guides and lesson blueprints. I develop all course content ensuring consistent display and functionality throughout, while also troubleshooting errors and enhancing website themes and functionality.

EDUCATION

Certificate in Full Stack Web Development: Georgia Institute of Technology, Atlanta, GA
Education Experience 1: Liberty University, Lynchburg, VA
Education Experience 2: Cornerstone University, Grand Rapids, MI
